EFFECTIVE DATE: July 15, 2008

SUPERSEDES: Policy #S-55

UP FOR REVIEW: December 19, 2021

In an effort to standardize the placement of street signs in the community, street signs will be placed on the southwest corner of each intersection, approximately 2 to 3 feet from the curb or sidewalk to accommodate mowing.

The exception to this policy is only if an obstruction obscures the vision of the sign.
